FARM INTELLIGENCE.

CARING FOR SHEEP.

The *Rural New Yorker* gives the following seasonable hints in regard to sheep at this season of the year:

Selection—The best time during the year to select out the best sheep to keep, and the worst to dispose of is at shearing.—Every fleece should be weighed and examined when taken off. The teeth should be inspected to ascertain the age. The shape, appearances indicating constitution, nursing properties of ewes, &c., should be carefully noted. It will suffice for the wool grower merely to mark the inferior and old ones, so they can at any time be divided out for sale. But the breeder should put numbers on all his sheep, and keep a register in which the peculiar characteristics of each are minutely recorded.

Cutting Hoofs and Horns—At or immediately after shearing, (if it has not been done previously,) all hoofs which have grown out long or turned under should be cut down to their natural size. Horns that press the head should also be sufficiently cut away.

Marking should be done as soon as the shearing of the flock is finished. The best brand for the woolgrower is an iron one—being the initials of his name in clear letters, some three and a half inches long. This stamped on with black paint is readily distinguishable at a considerable distance.—Metallic ear marks are very necessary for the breeder, who is thus at least at any time to identify each sheep described in his register.

Tarring.—When the marking takes place it is well to smear tar around the upper side of and between the roots of the ram's horns, particularly if the horns grow near to the head. Some smear the noses of all the sheep with tar.

Sun Scald.—If the weather be very hot at shearing, the sheep should be turned out where they can find shade; otherwise they suffer considerably, and their backs become scalded and sore.

Storms.—Sometimes a cold rain or storm sets in or soon after shearing, even after the proper season of shearing. When the fleece is first taken off the sheep is intensely susceptible of cold, especially when accompanied by rain, and we have known thousands of them to perish when thus exposed. On such occasions they should be more carefully stabled than in winter, or if this impracticable, they should be turned into dense forests which are least exposed to the wind.

Rams, even when they have been kept together, apparently frequently fail to recognize each other after shearing, and fight. If the skin on the top of the head is thus broken, and especially if blood runs about under the horns, maggots are soon generated, which, if neglected, rapidly leads to serious or fatal consequences. Therefore, besides smearing at shearing, rams' heads should frequently be examined afterwards—and always without delay if they are seen scratching them with their feet. If the skin is found broken it should be freshly smeared with tar and turpentine.

Salt—For the purpose of keeping the sheep tame, and ready to come when called, we prefer feeding this once a week in the summer, rather than keeping it accessible to the sheep at all times. They should be counted, if practicable, when salted, and carefully looked over to see if anything is amiss.

Water—Sheep will do without it in their pastures, but we think that they will do still better with it. We also think that suckling ewes having access to good water yield more milk to their lambs. For this reason, if we had two otherwise equal sheep pastures, one with and one without water, we would separate out the nursing ewes of the flock and put them in the watered pasture.

Weaning Lambs—They should generally be weaned as early as at four months old. They should then be put on good old pasture which has been closely fed down and then allowed to spring up fresh and tender, or on the fresh rowan or aftermath of meadows, or on the new seeded grass in stubbles. They should be salted as often as grown sheep, and rendered tame, and taught to come at call by having two or three very tame old sheep in every flock with them.

DAIRY MANAGEMENT.

In answer to some questions from a correspondent, the same paper gives the following advice to those contemplating entering into the diary business:

As to the plan of dairy-house for butter making, some useful suggestions may be found in the *Rural* of April 24th, where the question of milk houses is chiefly treated, and several plans given. We might add that for a small dairy a very good milk house is sometimes obtained by placing the building over a cool cellar, with ventilators in the floor, arranged like a wicket, or with hinges like a trap door, for drawing cold air from the cellar, and thus regulating the temperature of the room at pleasure. There should be a ventilator, also, overhead, which can be opened and closed as desired. The ventilators being opened, the heated air of the room passes out above, and the cool air from the cellar comes in to supply its place.

As a further means of preserving temperature, there may be a ventilating space of two feet surrounding the room, the building being arranged with double walls.

Where water is only to be had from a well, the Jennings' pan will be found convenient. It is a double pan, with space between the sides and bottoms for water.—They are made of various sizes, and are intended to receive the entire mess of milk from the dairy at one milking. The milk as soon as drawn from the cow is strained in the upper pan to the depth of about two and a half inches. The cold water from the well is poured into the space between the pans, and the temperature of the milk reduced to about sixty degrees.

When milk is treated in this way, and kept at this temperature, the cream soon rises, and is nearly all up in twelve hours. Then it is skimmed with a broad, shovel-like dish, dipping off the surface until the milk is reached.

An efficient and simple device for working butter is that in common use among the butter makers of Orange county. It is an inclined, triangular slab, standing upon legs, and has beveled sides about three inches high. The slab is four feet long and two feet broad at the upper end, tapering down to five inches at the lower end. At this point there is an opening for the escape of the butter milk into a pail below, and also for the reception of the end of the lever which works the butter. The butter, when ready to be worked, is placed upon the slab, and the wooden lever, which is either square or eight-sided, is pressed down upon the mass, commencing at the edge, and thus operated until the whole is gone over. It is a very simple affair and is not patented.

THE Ætna is the LEADING LIFE INSURANCE COMPANY in North Carolina.

Largest amount of Losses to Widows and Orphans!

The Largest Revenue to the States. And has by far the largest number when compared with 58 Companies reported officially by the Commissioners of New York and Massachusetts it will be seen that the Ætna ranks as one of the first Companies of the Continent. But two of the fifty-eight Companies permitted to do business in New York and Massachusetts had so large an income for the year 1868; but two had so large a number of Policies in force, but one among all those incorporated under the laws of the State of New York had so small a per centage of Expense to Income during the year 1868.

Its expenses are lower than most Companies', and consequently its ability to make and pay liberal dividends to the insured is greater than that of most other Companies. It is one of the great Companies of the land in Income, in Assets, in Number of Policies, in Amount Insured, in Solidity and Strength, in Soundness, Cheapness, Promptness, and Success. Persons contemplating this mode of investment in the future as in the past would do well to examine the claims of all and take a policy accordingly.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

FRIDAY, MAY 28, 1869.

BACON, COKE AND COLEMAN.

The readers of English history will remember the great rivalry between Bacon and Coke, for the office of Attorney General. Coke was successful. His harsh treatment to prisoners whom he prosecuted, his insulting language to the chivalrous and unfortunate Raleigh, and his brutal behavior in the trial of the Earl of Essex, will be remembered as long as his great services to the Crown and the world.

The rivalry between Victor Barringer and L. P. Olds, for the office of Attorney General, will not quite reach to the fame of that between Bacon and Coke.

As between the two we are for Olds, it, however, the Governor finds it out, that may damage his prospects for the place. We prefer Olds, because he is the most gentlemanly of the two, was not so mouthy and false in his devotion to the Confederacy, and not so mouthy and hypocritical in his protestations of loyalty to day.

But, while this Bacon Coke rivalry is going on for the place, Coleman has run away with it. Rumor hath it, he has left Washington City for Stettin, Prussia, without resigning his office. In that event there is no vacancy.

We get it not second but first handed from a member of the party, that the talk is to convene the Legislature to provide for this contingency, which has happened by Coleman's running away to Stettin with the office.

We suggest that the Governor and Fisher, his Adjutant General and Chief of Detective force, to have him arrested, and, without bail or main prize, hold him until he signs his resignation.

If Coleman should refuse to resign, it will only be history repeating itself. Sir Thomas Fleming refused to resign the office of Solicitor General for Lord Bacon, because he feared it would be "shelving himself" as they use to say in those days. Bacon, says Campbell in his lives of the Chief Justices, moved heaven and earth that he might be Solicitor General. He wrote to Queen Elizabeth, saying, "I affect myself to to a place of my profession, such as I do see divers younger in proceeding to myself, and men of no great note, do without blame aspire unto; but if your Majesty like others better, I shall, with the Lacedimonian, be glad there is such choice of abler men than myself."

He accompanied his letter, says Campbell, "with a valuable jewel to show off her beauty." "He did what he thought would be more serviceable and conclusive; he prevailed upon the young Earl of Essex, then in high favor with the Queen, earnestly to press his suit."

The appointment was left with the Lord Treasurer, who was Bacon's uncle, and he refused to appoint his nephew. Bacon was as much mortified as Cebe Harris, when his son failed to get the Postmaster's place of this City.

Bacon said "I can but conclude with myself that no man ever had a more exquisite disgrace." He resolved to quit the bar, and shut himself up in a cloister the rest of his days, but a soothing message from the Queen, gave him hope, and he did not carry out his resolution made in despondency and despair.

The Lord Treasurer would not appoint his nephew Bacon, because it was indelicate; what would his Lordship think of "our beloved's" appointing his son to two places as Director on Railroads when he had no qualifications for either of them.

Let us suggest to Victor not to move "heaven and earth" to attain this place, nor send jewels as did Lord Bacon to the Queen.

A quart would be more apt to move the Governor than jewels, for the Governor does not love jewelry, and can't be bought, or softened by it as was the Queen.—Boxler, the Governor's detective, has influence at Court; he can be your Earl of Essex, to intercede with the Governor. He proposed to intercede for us, and get the Governor to offer a reward of $500 for the felon who attempted to assassinate us. We declined his offer of kindness because he was with Joe, and Menninger, and Jenkins, at the Davie Street battle.

This matter of presents to officials is not only indelicate, but grossly corrupting.—Even at this distance of time men feel contempt at the recollection of Bacon soliciting office, and making presents, at the same time, to the Queen.

President Johnson declined to receive the fine carriage and horses presented by his friends in the city of New York. When Stewart and the admirers of President Grant, gave him fine houses and $100,000 in money, they should at least have kept it to themselves, they should certainly not have published the correspondence as they did.

In the Bacon and Coke contest for the place of Attorney General, the office remained vacant for 18 months. We say, if Coleman kidnaps the office and takes it to Stettin, let it go, let there be a vacancy for 18 months, rather than call the Legislature together again.

If Victor is defeated and should take it as much to heart as did Lord Bacon, and actually do what the old Lord resolved to do, abandon the bar, and shut himself up in a cloister, it would create a vacancy in the Code Commission, which chicken Stephens, the newly licensed Attorney of Caswell, might fill.

Eight hundred and one dollars per hundred pounds was paid at Lynchburg the other day for a few pounds of tobacco.

CONSOLIDATION.

Joseph Caldwell, Gaston, Murphy, Morehead, Swain and Gilmer have all departed without witnessing the long desired union and reconciliation of Eastern and Western North Carolina. From our earliest State history there has been jealousy and heartburning between the East and the West.

In 1784 it resulted in bloodshed and rebellion. Since that time there has prevailed a sectional feeling in the State; strife between the East and the West which has not redounded to the interest, improvement, or glory, of either section of the State. Consolidation of the Railroads in which the State is the large stockholder, will do everything towards allaying the sectional feeling between the East and the West, and at the same time, build up our trade and commerce. There are few harbors on the Southern Atlantic coast which are better than Beaufort. We made but little use of this grand harbor before the war. When the war broke out, Burnside and his immense Navy rode safely in. As soon as we are whipped there is a non user of the harbor again.

North Carolina, in the commercial world, has never been known except through Virginia. By consolidation of her railroads and concentration of her trade and commerce at Beaufort, she may be known, as other States are known, through her own ports and her own men. But we prefer to hear our able correspondent rather than ourselves.

For the Sentinel.

CONSOLIDATION.

To the Stockholders of the North Carolina Rail Road:

I have just received from the Board of Directors of the A. & N. C. R. R., and a Committee of Sixteen gentlemen, an invitation to attend a meeting in Newbern on the 2nd of June to "elicit and interchange views and opinions on the importance and practicability of consolidating the N. C. R. R. and the A. & N. C. R. R and to have an opportunity of personal inspection of their Road and Beaufort Harbor." The Board of Directors of the N. C. R. R. fully appreciating the importance of this measure so soon to be acted upon by us, have passed a resolution passing free to and from said meeting all Stockholders of our Road and offers every facility for us to inform ourselves on this important subject. Then let every Stockholder go, inspect the Road and Harbor and judge for himself, get all the information he can and then vote according to his judgment.

Whether consolidation is right in this case or not, one thing I do know that all the great Railroads of the country are consolidating their lines. The new York Central and Detroit, the Erie Road, the Pennsylvania Central to the West, the Union and Central Pacific Roads to to San Francisco, the Baltimore and Ohio, the Tennessee and Virginia Roads are consolidating to Norfolk, the South Carolina and Tennessee Roads consolidating to Charleston, the Georgia and Alabama Roads to Savannah, Mobile and Ohio Roads to Mobile, Mississippi Central and Great Northern to New Orleans. North Carolina alone of all the States, owning and controlling too her own State Roads, stands idly by and allows wealth and commerce to be carried from her and through her to enrich her neighbors, who in turn ridicule her for her Rip Van Winkle notions and call her, as she truly allowes herself to be, a strip of land between two States. Will she still be blind to her own interests? These Roads belong to her and her citizens. Then why not reap the benefit as a Stockholder in her works and build up her own seaports? Is she to continue forever to be a hewer of wood and drawer of water for her neighbors, or shall she arise in her might and claim her own.

The pride of every Carolinian should be aroused, and urge his good old mother to strive for her share of the benefits of consolidation Not only are the stockholders in the two Roads interested, but every tax payer in the State, for the State of North Carolina, owning a large majority of the stock, will get $4.36 out of every $5.80 made by the consolidated line. Why should not that great work pay all the expense of the State Government? Look at Georgia and her Roads. Cannot North Carolina do what other States have done and are doing? The State Roads of Georgia pay the whole expense of her State Government. What is it keeps up the credit of Georgia but her magnificent system of State Roads? Georgia bonds are to day worth in New York 95, while N. C. Bonds are only worth 54. North Carolina can do more than Georgia. Her waters are nearer to the Great West, and on the same parallel of latitude with Memphis, which is to be the eastern terminus of the Southern Pacific Railroad. And now when other States are exerting every nerve to secure the great advantage of these western connections by consolidating as far west as possible, shall N. C. refuse it? Virginia, not satisfied with her great efforts already made, has just chartered another Road, the Norfolk & Great Western, to make her favorite port Norfolk the outlet of the great West.

I have just seen an article in a North Carolina paper speaking of the importance of the completion of the Western North Carolina Railroad, that with Memphis for the Eastern terminus of the Southern Pacific Railroad, and Norfolk for its outlet to the sea, we would use the Western North Carolina Railroad a part of the line, and have a great line *through North Carolina*. Why not have the outlet of this great line *in North Carolina*? We have as safe and capacious harbors as Virginia.

Was the Legislature of North Carolina called upon to appropriate so many millions of money, and our people, burdened with taxation for generations to come, to build up Virginia and her ports, and carry the wealth of the country *through and out of North Carolina*?

Are we urged, by any true North Carolinians, to join Virginia against North Carolina, and enrich her people? Forbid it Carolinians, forbid it Stockholders in North Carolina Railroads. Take the great boon which is in your grasp and reap this great benefit for yourselves. We must look facts in the face. We must take things as they are, not as we would have them. We cannot shut our eyes to what is going on around us. If we do we shall, indeed, awake like Rip Van Winkle to see ourselves outstripped and disappointed, and our own great State left to mourn over her folly in not fostering and improving the great advantages which nature has given her. We cannot afford to be idle and indifferent when the whole world is moving. If we do, we may bid farewell to prosperity and our young men of enterprise and energy will leave the State and go where they can better prosper and reap the reward of their energy. Consolidation will increase vastly the business of the line. The stock in both Roads will be greatly improved by the increased business, and we will have large dividends to the State and to ourselves. See the effect of consolidation elsewhere. The New York Central stock was only worth $80 per share before consolidation, it is now worth $193 per share. Look at the stock of the Pennsylvania Central, since consolidated—the Baltimore and Ohio, and all the consolidated lines most of them are 50 per cent above par.

North Carolina Railroad's with their short lines and conflicting interests are paying scarcely anything to their Stockholders and to the State. Just look at it Stockholders, and tell me why it is so. There is something wrong. Are we less capable than citizens of other States? Consolidation, in my opinion will remedy the evil—It has done it in other States, then why not in this? The line from Charlotte to New York, would be under one management and control, and would be independent of all other lines. It could be operated more cheaply and successfully than any other, with less cost to the shipper and more profit to the Stockholders. Vessels of the largest capacity can enter safely Beaufort Harbor and discharge their cargoes immediately upon the Railroad wharf. There is no cost of drayage or other expenses of forwarding goods. There is every argument in favor of using our own and the line of the Atlantic & North Carolina Railroad.—Then let us commence at once to reap the benefit of our Roads, and of our trade, which has heretofore gone to enrich Norfolk and Virginia.

The Legislature looked upon this measure as one of such great importance to North Carolina, that they passed the bill authorizing consolidation by a vote of 79 to 17 in the House, and 26 to 11 in the Senate.—They saw the great efforts being made in other States, and all parties united upon this true North Carolina measure and passed it with the hope and expectation, that we would accept it and gain for our State, what every other State is striving to gain for herself.

Those great and good men and true North Carolinians, Dr. Caldwell and Judge Gaston and Judge Murphy, saw the great importance to North Carolina of a consolidated line of Road from our mountains to the sea coast, and urged it upon the people of North Carolina long before either of these Roads were chartered, and their predictions of the great benefits to result from such a system of consolidated Railroad's can be realized if you but say so.

Then Stockholders of the North Carolina Railroad, let us consider this matter for ourselves, this is our Road and our stock. We are to be benefited or damaged. Let us then decide this question after due investigation in a manner which may seem to us best for the interests of our Company.

A STOCKHOLDER IN THE N. C. R. R.

CHAPEL HILL.

Mr. Editor:—Being on a visit to Chapel Hill on the 12th instant I accepted an invitation to hear a public lecture from Rev. Prof. York in the Chapel of the University. Mr. York is well known to the people of North Carolina as a man of ability and learning. Much of his life has been spent in the cause of education.—He is now advanced in years and has been for some years totally blind, but years and affliction have not caused an abatement in his zeal and energy. I learn that he is now Principal of Ruffin Booker Institute, a flourishing academy in Chatham county.

The theme of his lecture was appropriately the state but important subject of education, unfortunately it is of too little apparent interest to our people at present.—The venerable gentleman handled his subject with great skill and ease, and although his reasoning was close, yet it was clear and so interspersed with pleasant allusions as to hold the attention of his audience for nearly two hours and a half. His high estimate of the importance of teaching the English language thoroughly, was correct as was publicly stated by the President of the University at the close of the lecture. If such men as Prof. York could address the people at the important points in our State, it would do much to arouse the people to a sense of their duty and interest in respect to this most important subject.

It was gratifying to see the people, old and young, ladies and gentlemen, turn out without respect to party politics from the fact that the lecture was delivered in the University Chapel, and that the entire faculty and their families seemed to be out.—I presume the invitation was given Prof York by them. If so it was a proper tribute of respect to this venerable friend of education, and should be duly appreciated by all.

CUBA.

HAVANA, May 24, via KEY WEST, May 25, 1869.—Advices from Santiago de Cuba, dated the 19th inst. and coming from Spanish sources, report that several days previous a steamer, supposed to be the steamship Perit, landed a large body of filibusters in the Bay of Nipe. While they were engaged in fortifying their position they were surprised by a strong force of Spanish soldiers, who attacked and carried their uncompleted works, capturing seven pieces of artillery and a flag marked "Presented by E. C. Villarade to the Riflemen of Liberty."

Before the Spaniards could avail themselves of the advantage they had gained the filibusters rallied, and after a severe engagement retook the position and all of the guns, but failed to recapture the flag, which the Spaniards carried off with them in their retreat. On recovering their artillery the filibusters turned the guns upon the Spanish steamer Marsella, sending two shots through her hull and forcing her to retire beyond range.

Some time after the Spaniards had been defeated the Spanish gunboat African arrived in the Bay of Nipe, and on perceiving the situation of affairs immediately went to Nuevitas for reinforcements.

The excitement at Nuevitas was very great. Immediately upon the receipt of the news the authorities there sent a steamer to Havana with dispatches communicating the intelligence to the government.

The steamship Perit arrived at Kingston, Jamaica, on the 15th inst., and was quarantined because she had touched at a Cuban port. She intended to return to New York in a few days. Five Cubans remained as passengers on board.

THE STEAMER LOUISA MOORE OFF FOR WASHINGTON, N. C.—Mr. J. J. Roberson yesterday started about 100 men for the Williamson and Tarboro Road. The steamer *Lou as Moore* was chartered for the purpose of carrying them, and started about 3 o'clock yesterday afternoon.

From Washington they will go on foot to Williamston, a distance of about 15 miles. Col. Hawkins has the contract for grading the road, and Mr. Roberson is employed to procure help.

It is creditable to the colored men who started yesterday, that as soon as work was offered them they immediately accepted it and started, and it should be a lesson to others, who have no visible means of support to go to work, earn an honest living and be respectable. Most of them are doing this, and the sooner the remnant follow their example, the sooner will they become good citizens, and men respected by the community.—*Newbern Times.*

At a meeting of the Directors of the National Bank of Newbern held Tuesday evening, R. E. Lehm, Esq., was elected Director, to fill the place of H. H. Thompson, resigned.—*Ib.*

STATE NEWS.

RAILROAD.—The Cheraw and Salisbury Railroad Company was organized, at Cheraw last week, by the election of the following officers:

President.—B. D. Townsend.

Directors.—A. F. Ravenell, L. D. Mowry, W. M. Robbins, D. Ingram, A. J. White, D. Bailey, L. Green, S. J. Townsend, and R. J. Donaldson.

TOBACCO STOLEN.—Col. Treacy, who resides near Barksdale's depot, had a barn broken into a few nights ago and over three hundred pounds of tobacco stolen.—*Milton Chronicle.*

CHEATING.—A white man named Walton who is a carpenter by trade, hailing from from Virginia, stept into the Snack house of Hill Peters, a colored man, who carries on opposite our office, and called for dinner. Hill fixed him up a good dinner and Walton made the ham and eggs "git." After stuffing his stomach to its entire satisfaction he made a frivilous excuse to go out—pretending that he wanted to see a man on the street before he left town, and promising to return "in a minute" and settle. But lo! Walton made a straight coat tail for Virginia, and he left the freedman to weep for his pay.—*Milton Chronicle.*

LISTING OF TAXES.—The focus of interest and excitement in the city, just now, is at the City Clerk's office, where the listing of taxables in "Township No. 8,"—the Puritanical designation for the city of Newbern—is going rapidly forward. Much discontent—and no little "cussing"—was manifested, as many of the tax payers considered the assessment onerous, and were not choice in the selection of words to express such a belief.—*Newbern Jour. of Com.*

UP AGAIN.—The ejectment case of Mr. W. H. Pearce against Luke Mason, colored, was up for the third time yesterday. In this instance, Clinton D. Pearson, colored, was the presiding Justice. Messrs. Justice and Haughton were the opposing counsel, the latter for the defendant.

The arguments were lengthy and pertinent. The case was continued until to-day.

Much interest has been excited in this case by the pertinacity exhibited by both the plaintiff and defendant. It has been before Justices Berry and Rixford, both of whom disclaimed jurisdiction, and at last Mr. Pearce determined to carry it—as he expresses it—"before an honest colored Justice." The decision will be heard with interest.—*Ib.*

The shoe store of Messrs. G. R. French, & Son on Front street, was forcibly entered Tuesday night by bold and determined burglars. The entrance was effected in the rear through a window secured by a firmly fastened iron blind or shutter. This was secured by a hook and bolt, which after a difficult operation the thieves managed to pry open to an extent to admit the entrance of one man. After getting into the store, the thief admitted his accomplices by opening the back door. The light then burning was extinguished amd the drawers ransacked. The money drawers, which are fastened with a patent back with bell attached, were forced open and rifled of their contents, amounting to about $25 in small change. Every other drawer was ransacked and probably about $250 worth of goods stolen, though it is impossible to ascertain definitely what is missing.—*Wilmington Journal.*

The Velocipede has made its appearance in our city. In addition to the one manufactured here by Mr. Lewis Brown, Mr. Lumsden, of Richmond, has opened a Rink in the Town Hall to which many of the young men are flocking to acquire a knowledge of the use of bicycle, while many visit it as a matter of curiosity.—*Salisbury North State.*

BEECHER ON EARLY MARRIAGE.

At no period, perhaps, in their life, do young men need the inspiration of virtuous love and the sympathy of a companion in their self-denying toil, as when they first enter the battle for their own support.—Early marriages are permanent realities, and deferred marriages are temptations to wickedness. And yet every year it becomes more and more difficult, concurrence with reigning ideas of society, for young men to enter upon that matrimonial state which is the proper guard of their virtue, as well as their courage and enterprise. The battle of life is almost at the beginning. There it is that a man needs wedlock. But a wicked and ridiculous public sentiment puts a man who is in society, or out of society, for that matter, largely on the ground of condition, and not of disposition and character. The man that has means wherewith he can visibly live amply is in good society, as a general rule. The man that has virtue and stern manliness, but has nothing withal external to show, is not usually considered in good society. Ambitious young men will not therefore marry until they can meet their expenses, but that is deferring for years and years the indispensable virtue. Society is bad where two cannot live cheaper than one! and young men are under bad influence who, when in the very morning of life, and better fitted than at any later period to grow together with one who is their equal and mate, are debarred from marrying through scores of years, from mere prudential considerations; and the heart and the life are sacrificed to the pocket. They are tempted to substitute ambition for love, when at last, over the ashes and expiring embers of their early romance, they select their wife. It is said that men who wait till they are forty or forty-five years of age select prudently.—Alas for the wife who was not first a sweetheart! Prudence is good; but is prudence servant or queen? Prudence is good; but what is prudence? It is the dry calculation of the head leagued with the pocket.—Is there no prudence in taste, nor prudence in the inspiration of a generous love? Is there no prudence in the faith by which banded, two young persons go down into the struggle of life, saying: "Come weal, come wo, come storm, come calm, love is a match for circumstances, and we will be all to each other!" Woe be to that society in which the customs and the manners of the time puts off, beyond the period of romance and affiancing, the wedding. You have adjourned the most important secular act of a man's life. You have adjourned it out of Eden into the wilderness!

An Excursion was given down the river yesterday on the revenue cutter Moccasin, to the Congressional visitors by some of their friends and admirers. These Congressmen constitute the sub-committee of Judiciary of the House appointed to conduct the investigation in the Judge Busteed case, and depart this morning for Mobile, via Montgomery, where they will first meet.—*Wil. Journal.*

STENCIL PEDDLERS.—The whole country seems infested with a number of strolling peddlers offering for sale stencils and inks of various descriptions. Many of these have recently visited our city, and we hear that they are rather insolent to ladies when they call at private residences. They have also been observed to mark in a mysterious and objectionable manner some of these dwellings. The police should keep an eye on them.—*Wil. Journal.*

"*Explanatory Drawing.*—The Drawing by the Real and Personal Estate Agency, anxiously looked for by persons who had taken stock, came off on Saturday, according to published programme. The weather was weeping, but the expectant people were not deterred by that, and went in numbers to Tucker Hall to watch the operation. A good deal of excitement was caused when the owners of lucky tickets claimed their prizes as their number was drawn.

J. M. Blair, Esq., of the Yarborough House, drew the $600 piano; Mr. Wesley Whitaker drew a $50 china set, and Mrs. Pepper, wife of the caterer, drew a $12 hearth rug. Very many of the tickets were sold out of town, and we have not the names of the holders. Every one was satisfied with the arrangements of the drawing, and this augurs well for the grand drawing of which this is explanatory."—*Standard.*

Total number of Tickets, 73,347.

All of the above is put in the drawing at the regular cash selling prices and will be disposed of by a regular mode of Drawing, and in order to accomplish this, the Company will sell 73,347 tickets at $2 each; for further information read section 10 and 11 of the By-Laws of the Company.

BY-LAWS.

SEC. 10. The plan of drawing shall be as follows: there shall be two wheels, one a prize wheel and one a number wheel, arranged in some public place in the city, where any one holding a ticket may be present on the day of drawing. In the number wheel there shall be as many tickets corresponding in number as there shall have been sold. In the prize wheel there shall be as many tickets as there are prizes, these tickets shall be deposited in the wheels by a board of supervisors, who shall be appointed by the Directors, after which the wheel shall be sealed up and placed in any bank in the city, the Director's may direct, until the time of drawing, when the supervisors shall bring the wheels to the drawing, break the seals and the drawing shall be disposed of by taking a ticket from each wheel, at the same time and one prize ticket taken from the prize wheel shall designate the prize drawn by the ticket corresponding in number to the one taken from the number wheel at the same time. The wheel shall be well shaken after each ticket is drawn.

SEC. 11. The Directors shall designate the time and place of drawing, at which time and place the supervisors shall be required to be present and see that the drawing is conducted entirely equitable.

A Board of Supervisors, will be appointed who will have exclusive control and management of the drawing. They will conduct the distribution and see that each person is legally invested with the property he may draw. A duplicate registry of the tickets sold will be kept; so that, in the event of loss of ticket, the accident may be remedied and no mistake can occur.

The Drawing will take place in TUCKER HALL in the City of Raleigh, immediately after sale of tickets,—of which due notice will be given.

The Company is working under the provisions of a special Charter granted by the General Assembly of North Carolina, which compels the Company to comply faithfully with all contracts.

Copies can be had on application to the Company.

All the above mentioned property will certainly be disposed of as above stated, and those drawing it will be invested with the title in fee simple.

☞ No member of the Company is allowed to purchase any tickets.

All moneys sent by mail, at the owner's risk; that sent by Express, Registered Letters, Checks or Drafts, at the risk of the Company.

No property will be listed unless the title is indisputable.

The Treasurer has been required to give a bond of five thousand dollars for the faithful performance of his duties. He is required to deposit, daily, in the bank, all monies received, where it will remain until all the tickets are sold and all the property will be positively drawn and delivered to the parties drawing, or the money returned. Send two dollars by express, postoffice order, registered letter, or draft, at our risk, or by mail at your own, and take a chance at the 5,000 valuable prizes offered.

Tickets will be sent any where in the United States at the Company's risk.

LOCAL DEPARTMENT.

FRIDAY, MAY 28, 1869.

NEW ADVERTISEMENTS.—Dr. James McKee offers his services to the public.

Prime sugar cured joles at P. P. Willianson's.

Ornamental Water Coolers &c; J. Brown, with Hart & Lewis.

MARKET HOUSE.—This question troubles the Commissioners, who are, or ought to be, the fathers and guardians of the City. In April the contract for the building of the market house was offered to the lowest bidder. Mr. Prairo bid about $34,000. Mr. Briggs, a well-known and skillful architect of this city, bid $17,500 Mr. Briggs did not get the job. He is not loyal, according to the Holden standard of that very common and cheap article. The Commissioners advertised anew for bids to build the proposed house, and, on Thursday last, the bids were opened. Mr. Prairie's bid was $34,400; W. B. Gordon, called by the Hillsboro' *Recorder* the prince of builders, bid $27,500. Mr. Prairie got the job, and the tax-payers of the city can well afford to pay the difference so long as they have "Collards" for city collector.

PIC-NIC.—The teachers and scholars of the M. E. Sabbath School enjoyed, yesterday, a delightful pic-nic, in Rayner's Grove. We understand that quite a number of persons were in attendance and that everything went off merrily, smoothly and pleasantly.

QUICK WORK.—We are informed by a gentleman, that an order left this city for Baltimore, on Tuesday morning last, for a hundred barrels of flour, and this morning the flour was safely stowed away by the party ordering it. The freight alluded to came via the Bay Line, over the Seaboard & Roanoke and Raleigh & Gaston Railroads. This is, we believe, the quickest time on record. If the Express Companies wish to get ahead of this system of through freighting, they will have to commence sending goods by telegraph.

DIED.—Yesterday afternoon, on the premises of J. B. Neathery, Esq., George Tucker, a colored man, who came to this place about three weeks ago, from Petersburg, Va. He had been suffering from consumption for sometime past, and at the time above mentioned, while sitting quietly in a chair, was seized by a sudden and violent hemorrhage, which resulted in his death in about ten minutes.

WE understand that Coleman has departed from Washington City, en route for Stettin, Prussia, without sending to the proper authorities his resignation as Attorney General. Well, as far as any good the State is likely to derive from the office, we don't know that it makes any difference whether it goes to Prussia or stays here.

BEEF AND MUTTON.—Our friend Benj. Kirkham will have in market, on Saturday morning, some fine beef and a number of lambs,—butchered and dressed "all right." Give him a call.

EARLY.—In calling attention, yesterday, to the meeting of the Committee to investigate the affairs of the old State Banks, the time of meeting should have been mentioned as the 4th, instead of the 6th, of June.

The Milton *Chronicle* goes into raptures over the *Standard's* announcement of one Brewer's presence in this community. It is good; read it:

We find the following merited compliment paid our friend Blair in the *Old North State*:

THE YARBROUGH HOUSE.—During our stay in Raleigh last week, we lodged with that prince of hotel keepers, J. M. Blair, of the Yarbrough House. We found the Yarbrough to be, what every one who stops at it knows it to be, one of the very best houses in the Southern Country. Mr. Blair has an adaptation to the business which belongs to but few men, and all who may patronize him will soon become convinced. If you want to find clean rooms, nice beds, polite and attentive servants, and an elegant table, stop with Mr. Blair.

If the Delaware whipping post could but be transferred to this section for a while and one or two examples made, it would prove quite efficacious in stopping the system of thieving now being carried on. We say this not because we admire this mode of punishment, but that the past and present have shown it to be necessary to the peace of society. North Carolina, before and during the war, when this punishment was in vogue, bore the cleanest sort of a criminal record. The rogues of the present day have no horror of a jail where they are fed in idleness, or a workhouse from which they can escape.

The above we extract from the Wilmington *Journal*, and join in heartily, as far as this section is concerned, in the opinion that a re-establishment of that old institution (elept "whipping post," would result in great good.

Perhaps an annual tax of twenty-five dollars, and a requirement that every dog shall have his owner's name on his collar, would help the case somewhat. In some way, the growth of public dogs must be abated.—*N. Y. Times.*

MEMPHIS BRANCH RAILROAD.—The stockholders of the abov. road have organized by the election of the following gentlemen Directors:

Alfred Shorter, W. S. Cothran, S. P. Smith, A Griffith, D. S. Printup, C. H. Smith and Samuel Noble.

W. S. Cothran was elected President of the Road.

NEW POST MASTER.—Henry Shore has received the appointment of Post Master at Salem, vice Dr. A. T. Zevely, removed.—Mr. Shore was the old Deputy under O. A. Keehln before the war. The appointment gives general satisfaction to the citizens.—*Western Sentinel.*

GENERAL NEWS.

HORACE GREELEY'S ADVICE TO THE RADICALS OF WEST VIRGINIA.

NEW YORK TRIBUNE,
NEW YORK, November 18, 1868.

MY DEAR SIR:—I have yours of the 16th. Its leading positions have long been understood and appreciated in this quarter. Now hear me:

Every year one thousand of your rebels die, and one thousand (or more) of their sons become of age. You can't disfranchise THEM. You have now five thousand majority. Six years at furthest will convert this into a rebel majority of one thousand. Then the rebels will be enfranchised in spite of you, and the blacks will be left under foot—and you under estimate at two thousand.

Go your own way, and see if the rebels don't have you under foot in less than six years.

I speak from a wide experience when I tell you that your house is built on the sand. It cannot stand. Every year will see the passions of the war cool and the demand for amnesty strengthened. *Now* you can amnesty the rebels. Soon the question will be, Shall they amnesty you? Look at Kentucky and Maryland, and read your certain fate in theirs. Yours,

HORACE GREELEY.

To the Editor of the Wheeling Intelligencer.

A WONDERFUL SPECTACLE IN CONNECTICUT.—Ten thousand calcium lights could not have made surrounding objects as distinct. Looking out into the street, it was as if thousands of tons of gunpowder had exploded in some building. Following it closely came a loud rumbling sound from the south, as of some mighty wave breaking on the beach. The people in this vicinity of the plain say that a trembling of the earth was at this time perceptible.—Many were of the opinion that an earthquake was about to visit us. No pen can describe the magnificence of this brilliant phenomenon. Nothing similar to it has been seen that we have a record of for centuries. Monstrous meteors have flashed across the heavens frequently, and other aerial phenomena have been visible at times, but nothing has been seen so peculiar in shape, so beautiful in its effects, as this.—*Norwich Courier.*

A story which is told about town will show how little the President really knows whom he appoints or removes. It is said that Hon. J. B. Hawley, Radical member from the fourth district, waited on the President some time ago with the announcement that he "had come to talk a little about the appointments in his district."—The President said he was very willing to accede to the wishes of his friends; but, said he, "Mr. Hawley, there is one request you must not make. I do not want to remove Jack Grimshaw, collector of your district. He is a good Republican and an honest man, and I will not have him disturbed." Then says Mr. Hawley, "Well, Mr. President, I will not ask you to disturb Mr. Grimshaw, for the very good reason that you removed him from office ten days since and appointed his successor, who has been confirmed by the Senate." How the interview terminated my informant does not state.—*Springfield (Ill.) Letter.*

A North Carolina gentleman informed us on Saturday that General Butler had made an investment in cleared and swamp lands in the vicinity of Plymouth, in Washington county, and intended to make his residence there.—*Norfolk Day Book.*

Cowan & McDonnell, the proprietors of the Rosendale Hotel, Morrisania, New York, quarrelled on Saturday night, and in the heat of the controversy, the former was killed by a blow from a club. McDonnell surrendered himself to the police.

The railroads of the world, at the close of 1868, are reported to have been in the aggregate, 109,177 miles long. The comparative mileage of the different countries is given as follows: The United States, 42,255; Great Britain, 14,247; France, 9,934; Prussia, 5,926; Russia, 4,317; and Italy, 4,169. The total for Europe is 56,660. Asia has 4,474 miles; South America, 1,424; Australia, 789; Africa, 583.

The New York papers says that the great fire at Hunter's Point, is believed to have been of incendiary origin, as it appeared simultaneously in the oil works of Day & Co., and Devoe, Pratt & Co., both being contiguous.

The property destroyed was the oil works of Devoe, Pratt & Co, the oil works of Day & Co., two frame dwelling, the coal and lime yard, with sheds, of John C. Provost, the Norwegian brig Avance and cargo, seven lighters, or oil-tank boats. Total estimated loss, $400,000.

BENEVOLENT ENTERPRISE.—Mrs. Elizabeth Langdon has purchased 400 acres of land about 40 miles from New York city, on the line of the Long Island railroad, on which she designs establishing an industrial farm for vagrant and destitute children. Boys and girls without natural protectors and providers, from infancy up to twelve years old, will be admitted. The children, after being properly trained, will be sent to the West for adoption.

JOHN MITCHELL ON SPIRITUALISM.—For our own part, we give it up, not feeling the slightest interest in it either *pro* or *con*.—The writer in the *Catholic World* is of the opinion that the Devil is in it; which is highly probable: but even that presentation of the subject fails altogether to excite in our mind the smallest curiosity, indignation, terror, or respect. Only we had given Satan credit for more sense.

Dayton, Ohio, claims five hundred liquor establishments, fifty cigar shops, and seventy-five retail millinery establishments.

Two whales were caught Tuesday off East Hamption, Long Island. They will make each forty barrels of oil.

Among the prizes recently drawn in a Vermont lottery were 8,000 gilt rings, worth half a cent each, and 150 empty flour barrels.

Only thirteen of the one hundred and sixty six registered distilleries in Indiana are in operation, and some of these will soon close.

A steamtug exploded Tuesday at the foot of Wall Street, New York, and sunk. Several persons were badly scalded, but not lives were lost.

A Fort Monroe dispatch states that a one-armed soldier named Gilligan, living near Mile Creek, Va., beat his wife to death on Monday night.

Eighteen new cases of small pox are reported in New York city, most of them being of a virulent character. The patients, are usually removed, by force if necessary, to the small-pox hospital.

THE RIGHT MAN IN THE RIGHT PLACE.—Mrs. Dr. Walker has applied for the post of Charge d'Affaires at Madrid, in conjunction with Gen. Sickles, Minister. That squares with the rule of right and is in strict accordance with the invariable fitness of things. It is a strong team, and congenial! Let it be.

The truck trade of Norfolk, Va., this season, it is estimated, will amount to about $2,000,000.

GOSSIP ABOUT LISZT.

Formerly, when Liszt gave a concert, he always made his appearance in the hall at the very last moment. His footman was obliged to remind him repeatedly that it was time for him to go, and that the audience was becoming impatient. All this did not prevent Liszt from ordering a cup of tea to be prepared for him, and he said also that he wanted to smoke first a cigar. When he reached the hall at last he shook hands and chatted with his friends until further delay was absolutely impossible.—One day (the Emperor Ferdinand was still on the throne of Austria) Liszt was in Vienna, and was requested to play at a Court concert. He went to the Imperial palace, where he was told that the concert would commence immediately. Liszt thereupon took a cigar and lighted it. The lacqueys then told him that nobody was ever permitted to smoke in the Imperial apartments. "Well, then," said Liszt, who is a passionate smoker, "I shall go down to the Court yard, and smoke my cigar there."—"That is likewise forbidden." No sooner had he heard this than he went down to his carriage, entered it, and took a drive through the streets of the city. In the carriage he smoked one, two, three cigars, and forgot all about the concert. Upon reaching his hotel, he was informed by his excited footman that the whole court had been waiting for him for ever so long.—Louis XIV. came one day, near waiting for somebody; but on that day Liszt kept the whole Austrian court waiting for several hours. It is unknown how he managed to get pardoned for this dreadful breach of etiquette.

LAST NIGHT'S DISPATCHES.

FROM WASHINGTON.

WASHINGTON, May 27.—Commodore Hoff's reports to the 19th contain nothing important.

Revenue to-day over a million dollars.

The President will participate in the decoration of soldiers' graves on Saturday, at Arlington.

The Trustees of the Corcoran Art Gallery met yesterday.

FROM NEW ORLEANS.

NEW ORLEANS, May 27.—Gov. Warmouth proclaimed a quarantine of not less than ten days against the following ports: Havana, Matamras, Trinidad and Santiago, Cuba; Port Royal and Montego Bay, Jamaica; Jacmel and Port Au-Prince, St. Domingo; the Islands of St. Thomas, Martinique and Guadaloupe; Campeachy, Yucatan Belize, Honduras, Vera Cruz, Alvarado, Tampico, Matamoras and Tuspan, Mexico; San Juan, Nicaragua, Chagres, Aspinwall and Porto Bello, Central America; Maracaibo, Venezuela, Laguayra, Island of Trinidad; Rio Janerio, Para and Cayenne, South America, and Nassau, New Providence.

Morgan, the purchaser of the Opelousas Railroad, in a long public communication announces his readiness to co-operate with the business men of Texas, Louisiana, New Orleans or any other section of the country interested in extending the Opelousas Railroad from its present terminus to Texas by the most eligible route, and proposes that a new corporation be formed to obtain the remaining franchises of the New Orleans, Opelousas and Great Western Railroad Company, with a cash capital of four millions, of which he will himself take, and pay cash for two millions stock, provided the same amount be raised by other parties interested. He also announces his intention to put the road already completed in perfect repair, if necessary making a double track.

The delegation of the State of Alabama in the Commercial Convention adopted a series of resolutions expressing their high appreciation of the admirable qualities of the late Col. L. T. Woodruff, President of the Mobile Board of Trade, who was killed at a recent fire, and their regret at his untimely death.

Upon assembling this morning, the Convention took up the report of the Committee on obstructions at the mouth of the Mississippi without recommending any particular plan of operations, respectfully commend the suggestions of the New Orleans Chamber of Commerce upon the subject that while acknowledging the liberality of appropriations for removing obstructions they would in view of the large accumulation of deposits within the past few years earnestly urge the necessity of still further appropriating and continuing the work. Also recommend that contracting and undertaking be confined entirely to the U. S Engineer Bureau in whom they express entire confidence. The report was adopted.

The following, which was the embodiment of both the majority and minority reports of the Pacific Railroad Committee was adopted:

Resolved, That a main trunk railroad line from San Diego, California, should be built through the junction of the rivers Colorado and Gila, along the valley of the Gila south of the same to El Paso on the Rio Grande, thence to a convenient point near the thirty-second parallel west of the Brazos at or near the river, in the state of Texas; to which main trunk roads may be built from St. Louis, Cairo, Memphis, Vicksburg, New Orleans and Galveston on the east, and Guaymas, Mazatlan and San Francisco on the west, with connection for all, which should be known and designated as the Southern Pacific Railroad.

The discussion of the Pacific Railroad question was lengthy and exciting, and the longitudinal route from Cairo to Mazatlan was strongly advocated by Texans and Illinoisans.

The Convention remained in session till 9 p.m. and adjourned till to-morrow.

FROM ALABAMA.

MOBILE, May 27.—The General Assembly has adopted a paper urging the Presbytery of Florida to lay before the Central Presbytery of Philadelphia a statement of facts connected with the seizure of the Jacksonville Church by Northern ministers, and ask for redress.

The plan for the relief of families of deceased clergymen, was referred to a Committee to report at the next assembly. The overture on music was indefinitely postponed. The revised book of the church order was sent down to the Presbyteries for criticism, the revision to be completed at the next assembly. The assembly dissolved at one o'clock.

FROM RICHMOND.

RICHMOND, May 27.—The State Convention of colored men from points of trust and profit and the jury box, met to-day. They adjourned until to-morrow.

FOREIGN.

HAVANA, May 27.—Lesca succeeds Letona in the Governorship of Puerto Principe.

MADRID, May 27.—Serano, addressing the Cortes regarding Cuba, said the rebellion was suppressed, but moral disorder was disappearing slowly. When the normal condition was restored the home government, acting with certain deputies, will suppress slavery.

PARIS, May 27.—Returns show 27 opposition members elected.

LONDON, May 27.—Gov. Peabody goes to New York naturally.

AFTERNOON DISPATCHES.

FROM WASHINGTON.

WASHINGTON, May 28, M.—It is generally understood that Boutwell wont retire three per cent certificates.

FROM NEW YORK.

NEW YORK, May 28.—The New School Presbyterians have adopted the plan of union, proposed by the Committee unanimously. Old School seven dissenting. The plan of re-union involves the acceptance of Church standards pure and simple. Dr. Howard, of the New School opposing basis, and hoped that judicious delay would secure union with the Southern Presbyterian Church.—This action of the assembly requires the endorsements by Presbyteries before consummation.

FOREIGN.

HAVANA, May 28, M.—Dulce is sick—death daily expected.

The garrison at the Fort Barbanecas rioted during the debarkation for Spain of galvanic prisoners. The volunteers tried to stop the debarcation. During the melee loud cries of "death of Dulce" were heard. The rioters yielded to the supplications of the Governor. The prisoners were allowed to embark.

The Spanish steamer in the bay of Nipe, fired by mistake on the Spanish troops, killing forty.

READ WHAT THE
HIGHEST INSURANCE AUTHORITIES
SAY OF THE
BROOKLYN LIFE!

"A Company that makes such endorsements on its policies, gives the strongest pledge that it will fulfil its promises faithfully, and keep its reserves sufficient."—HON. ELIZUR WRIGHT.

"The BROOKLYN LIFE has placed itself in the vanguard of insurance reform, and is the first Company that has done full and complete justice to the insured."—INSURANCE TIMES, Jan. 1869.

THE BROOKLYN LIFE, ALONE OF ALL OTHER LIFE INSURANCE COMPANIES, GUARANTEES A DEFINITE SURRENDER-VALUE IN CASH, AND EVERY POLICY ISSUED BY THAT COMPANY, BEARS A CERTIFICATE STATING WHAT THIS EXACT WORTH WILL BE IN DOLLARS AND CENTS, AT ANY TIME, AFTER THE PAYMENT OF TWO OR MORE PREMIUMS.

"The BROOKLYN LIFE has made no half-way work of the adoption of this inestimable feature. It is noteworthy, in this connection, as a merited tribute to the excellent Company (Brooklyn Life,) which has so gallantly raised the standard of reform in Life Insurance, that we find in the whole list of existing Companies, few competitors which deserve so much credit in respect of economy of management, or care, skill and judgment in the selection of risks."—INS. SPEC. Jan. 1869.

The BROOKLYN LIFE has paid, and now pays to its policy-holders, LARGER DIVIDENDS than ever before paid by a Life Insurance Company!

Dividends are paid IN CASH, or applied to the permanent increase of the policy, or left with the Company to accumulate at interest, in either way, at the option of the policy-holder.

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are of a truly marvellous character. Inveterate cases of scrofula, where the system seemed utterly given up to corruption, have yielded to this compound of anti-strumous virtues. Disorders of a scrofulous type, and of forms which are merely aggravated by the presence of scrofulous matter, have been radically cured in such numerous instances, in every settlement in the country, that the public do not need to be informed here that it is in most cases a specific and absolute remedy.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed hideous tumors about the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver. These facts make the occasional use of the *Sarsaparilla* as a preventive, advisable.

It is a mistake to suppose that so long as no eruptions or humors appear, there must be no scrofula tainted. These forms of derangement may never come, and yet the vital fluxes of the body be so rendered by its subtle agency, as materially to impair the health and shorten the duration of life. It is a common error, also, that scrofula is strictly hereditary. It does, indeed, descend from parent to child, but is also engendered in persons born of pure blood. Low living, indigestion, foul air, licentious habits, uncleanliness, and the depressing vices generally, produce it. Weekly constitutions, where most fortified by the most constant and judicious care, are positively liable to it. Yet the robust, also, whose carnal blood swells the veins with an apparently exuberant vitality, are often contaminated, and on the road to its consequences. Indeed, no class or condition can depend on immunity from it, nor feel incredulous to the importance of an effectual remedy.

In *St. Anthony's Fire, Rose or Erysipelas, Sore Throat, Salt Rheum, Scald Head, Ringworm, Sore Ears and Eyes*, and other eruptive or visible forms of the diseases caused primarily by the scrofulous infection, the *Sarsaparilla* is an efficient aid to be indispensable. And in the more concealed forms, as in *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and other affections of the muscular and nervous systems, the *Sarsaparilla*, through its purifying power, removes the cause of the disorder and produces admirable cures.

The sarsaparilla root of the tropics does not by itself achieve these results. It is aided by the extracts contained with it, of still greater power. So potent is this union of healing virtues, *Syphilis* or *Mercurial* and *Mercurial Diseases* are cured by it, though a long time is required for subduing those obstinate maladies by any medicine. *Leucorrhœa or Whites, Uterine Ulcerations*, and *Female Diseases* in general, are commonly soon relieved and ultimately cured by the invigorating and purifying effect of our *Sarsaparilla*. *Rheumatism* and *Gout*, often dependent on the accumulations of calcareous matters in the blood, have their remedy also in this medicine. For *Liver Complaints*, torpidity, inflammation, abscess, etc., caused by rankling poisons in the blood, we unhesitatingly recommend the *Sarsaparilla*.

This medicine restores health and vigor where no specific disease can be distinguished. Its restorative power is soon felt by those who are *Languid, Listless, Despondent, Sleepless*, and filled with *Nervous Apprehensions or Fears*, or who are troubled with any other of those affections symptomatic of weakness. Many, after taking it for *General Debility*, have written us of the youthful vigor imparted to their nervous system, which seemed buoyant with that prolific life they thought had departed on the advance of age. Others, whose functions of life were always sterile, acknowledge their obligations as is for an obvious change.

Ayer's Ague Cure,
For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Bumah Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no way injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

THE FAIREST ALWAYS THE RAREST.

Thus it is all over the earth!
That which we call the fairest,
And prize for its surpassing worth,
Is always rarest.

Iron is heaped in mountain piles,
And gives the laggard forces;
But gold flakes gleam in dim defiles
And lonely gorges,

The snowy marble flecks the land
With heaped and rounded ledges,
But diamonds hide beneath the sand
Their starry edges.

God gives no value unto men
Unmatched by need of labor;
And cost of worth has ever been
The closest neighbor

Were every hill a precious mine,
And golden all the mountains;
Were all the rivers fed with wine
By tireless fountains;

Life would be ravished of its rest,
And shorn of its ambition,
And sink into the dreamless rest
Of inanition.

LIFE INSURANCE.
NATIONAL
LIFE INSURANCE COMPANY,
OF THE
UNITED STATES OF AMERICA,
WASHINGTON, D. C.
Chartered by Special Act of Congress, Approved July 25th, 1868.
CASH CAPITAL,
$1,000,000,
PAID IN FULL.
It is no longer a question with any man, who tenderly loves his wife and children, who considers how helpless would be their condition in case of his death, as to the duty of taking out a LIFE POLICY, but as to which Company he shall pay his money.
If he reflects a moment he will conclude to patronize the Company which shows the greatest degree of vitality, which extends its business over the largest area, which is a Home Company in every locality; which furnishes insurance at the least cost; which issues no policies that are forfeitable should he be unable next year, or any subsequent year to pay his renewal; and which is undoubtedly able to meet ALL ITS PROMISES.
With these feelings and views, he looks over the newspapers, and, by the time he gets through reading the advertisements of Mutual or Mixed Companies, he finds his mind so fuddled that he is at a loss where to go or what to do. He can not comprehend one-half that is written, and concludes that none but Actuaries, who are familiar with the principles upon which Life Insurance is based can comprehend or explain anything about dividends and his liability for notes given in part payment of premiums. In his dilemma, he looks into the plan adopted by the
NATIONAL
LIFE INSURANCE COMPANY,
U. S. A.,
and finds just what he wants:
An ALL-CASH PLAN, reduced to the LOWEST MINIMUM Rate, like any commodity in Market, so much Insurance for so much Money. No notes to give; no interest to pay; no anxiety about Assessments; no apprehension of his Policy being forfeited next year if he does not pay his annual Renewal; and the RATES so much LOWER than other Companies, that he realizes a larger Dividend, IN ADVANCE, than other Companies can pay him in the future.
He finds that, instead of this UNCERTAIN PROMISE, and present high rate, that the
NATIONAL
presents a certain and definite sum for a much lower rate, and puts up its paid up Capital of
$1,000,000
as a guarantee fund, that its contracts will be fulfilled, and, like thousands of others, cheerfully calls on their Agent to make his application for a Policy. Hence the unprecedented and most wonderful success of the NATIONAL as contrasted with the older and Mutual Companies.
The Company issued its first policy on the 1st of August, 1868, and up to March 1st, 1869, it had issued 3,582 policies.

Amount insured,	$10,005,550.00
Total Premiums,	350,117.03

The whole number issued by the Connecticut Mutual in the first year of its existence was 899
By the Mutual Benefit of New Jersey, 693
" New England Mutual, 343
" Phoenix Mutual, 335
" Massachusetts Mutual, 313
" Equitable of New York, 277
The Mutual Life, of New York, in the first year of its existence, only issued 470 policies.
In its 10th year, $1,260
And in its 20th year, 2,842
this latter being 690 less than was issued by the NATIONAL in its first seven months.

THE Sentinel.

PUBLISHED AT THE
CAPITAL OF THE STATE,
Daily, Semi-Weekly and Weekly.

NEW ARRANGEMENT.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him.
It will be the zealous and fearless advocate of the CONSTITUTION of the United States, seeking to bring the people back to their ancient reverence for that immortal instrument, and to restore the policy of this country to that honored standard, as the only guarantee of National prosperity.
It will do justice to the men and measures of the present day, whenever they may merit it, but it will unsparingly lash and denounce all who set themselves up in opposition to the Federal Constitution, and hold up to public indignation corruption and imbecility in high places.
It will ardently seek the promotion of the best interests of North Carolina,—moral, educational, material and political.

THE LATEST NEWS

From every quarter, both by mail and telegraph will be carefully collated and presented.
Full and correct market and financial reports will be given.
And, in one word, no effort will be spared to make the SENTINEL, in all respects, a reliable
FIRST CLASS NEWSPAPER.

CAUTION! WE desire to warn the dealers in, and consumers of Snuff generally, that since the war, certain Tobacco Manufacturers, being unable to find a market for their snuffs, felt themselves obliged to counterfeit the general appearance of our packages, and imitate our Trade Marks so that a close inspection is necessary to detect the spurious article from the genuine, and others going so far as to assert that "Lorillard's Snuff is no longer made."
In making this publication we desire to warn the public against the impositions practiced upon them, as they are the losers thereby. It will be found, upon comparison, that Lorillard's snuff is "far ahead" of all others, being made of the best stock, after an original and secret process known only to ourselves, besides possessing great age, strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of many worthless articles put on sale by others. The best is the cheapest in the end. A circular will always be mailed on application. In ordering please specify if Salt Snuff (High Toast,) or Fresh Snuff (Extra Scotch) is desired.

RAILROADS.

TO SHIPPERS.
NORTH CAROLINA
ALL STATE
RAILWAY LINES, (THAT USED TO BE!)
THE OLD RALEIGH & GASTON RAIL ROAD THE SHORTEST, QUICKEST, SAFEST AND BEST LINE, NORTH AND SOUTH, TO BE LEFT OUT IN THE COLD, UNLESS SHIPPERS SPECIALLY SAY VIA. R. & G. R. R.!
WE inaugurated and are the Great through Inland Air Line Route to all the Northern Markets, and have successfully worked the Line to the entire satisfaction of shippers, North and South, for the last ten years, as the ten Thousand shippers in North and South Carolina will testify. We passed the State near Seven Hundred Thousand Dollars for her Interest in this Road—thereby saving the people from Taxation for all time to come $40,000 per year; and we unhesitatingly declare that we can and will give more dispatch to all points, North and South, than any other Line.

MISCELLANEOUS
NEW METHOD OF WASHING CLOTHES
WITHOUT LABOR.
THE AUTOMATIC
CLOTHES WASHER AND BOILER.
THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any Stove or Range, in any boiler, and the LOW PRICE of the article places it within the reach of every family.
This Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the clothes.
The hot suds and steam, by the action of heat, are driven up through tubes, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing all articles, from the finest laces to the coarsest blankets. For Flannels it is invaluable, as it does not full them as in the old process of rubbing and pressing.
The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric, thoroughly loosening and eradicating the dirt WITHOUT LABOR or friction.—A thorough rinsing finishes the process.
Washing day will no longer be a terror and dread to housewives. The cost of the Boiler will soon be returned in the SAVING OF TIME AND LABOR, and the great saving in the wear of clothes.
The great value of this invention appears so clear, and appeals so directly to common sense, that we have deemed it unnecessary to accompany its introduction with numerous letters of approval, &c.
No invention has met with such ready sale and given such satisfaction. Call at LOUGEE & BROTHER'S, and see its wonderful operations.—We have the exclusive right to sell and manufacture in the State.
